Subject: Re: GMO-Old Velsicol Property Meeting Aug 15 

Some issues for the pre-meeting:

1. Are we 100% sure it is thorium or could there be fertilizer?
2. Who is GMO?
3. Supposedly the Old Velsicol property has changed hands several times between GMO and the Teacher's Retirement System, over the past 6 years?

Shall we have a pre-meeting at 10:00 in room 1310 to discuss our response to JT Smith's and Tim Ramsey's letters? The meeting with the prps is at 10:30. The appointment went out for 10:10 but I think we should move it to 10 because they often arrive early.
